Key Pad Dimensions & Installation Instructions

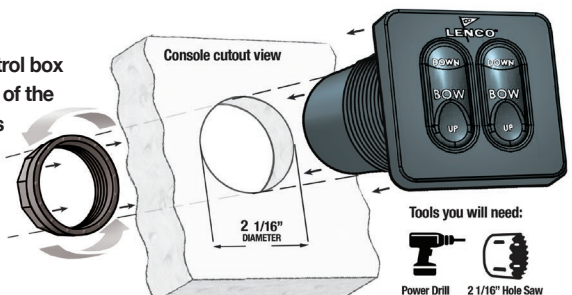

See the Lenco Marine owners manual for complete switch mounting instructions.
lencomarine.com/ownersmanual

Align the center bit of a 2 1/16" (52.39 mm) hole saw with the cross hairs in the center of the desired mounting area and drill straight down through the console, providing additional clearance for switch and electrical connection. Insert the switch into the console cutout hole then tightly screw the Bezel Locknut clockwise onto the backside of the key pad.

NOTE:

This switch has the control box integrated into the back of the switch Key Pad. There is no external control box for this kit. Wiring harness is 30" (76.2 cm) in length from the end of the switch bezel.

ATTENTION: REPLACEMENT KEY PADS AND CONTROL BOXES FOR 2016 AND PRIOR SWITCHES ARE NOT COMPATIBLE WITH THESE NEW SWITCH KITS. PLEASE REFER TO OUR LENCO CATALOG AND / OR LENCOMARINE.COM FOR REPLACEMENT PARTS FOR OUR OLD-STYLE AND NEW-STYLE SWITCH KITS.
